## June 2020

Wow, is it really June already?

Time flies, just like the MemCPU™ XPC SaaS! In the latest release of our SaaS platform, clients are engaging with upgrades to the User Interface as well as experiencing significant improvements under the hood that are improving the security, performance, and reliability of the platform. To keep it short and sweet, the MemCPU XPC SaaS is running in peak condition and is only growing stronger.

Social Media: One of our goals is to reach 100 followers on Twitter by the end of this month! Help us get there by giving us a follow: <https://twitter.com/memcomputing/>

From awards, new videos and new webpages, heres an update from our month.

### Latest Award

MemComputing was recognized as one of San Diego's top-performing startups, or "Cool Companies" for the third time by Connect!

About Cool Companies: Cool Companies is an annual capital program designed to match San Diego's best technology and life sciences startups ready to raise Series A — with quality venture capital. The program selects top tier, local entrepreneurs raising institutional funding, and grants them opportunities for direct access to capital providers.

## Upcoming Events

### Tech Collision Event

Colorado Springs  
July 28-30

MemComputing has been selected to pitch at the first ever Catalyst Accelerator Tech Collision event this summer.

The event, sponsored by the Air Force Research Laboratory's Space Vehicles Directorate, the Small Business Administration-SBIR/STTR program, and Tech Warriors Ops, will be a 3-day pitch event where 32 – 40 startups and small businesses will have the opportunity to pitch innovative, dual-use space technologies to government and industry tech scouts. We are

## Hello Tomorrow

**Postponed: Now October 22-23, 2020**  
**Paris**

We were planning on attending the Hello Tomorrow Global Summit in March, however due to the COVID-19 crisis, this event has been postponed until October. We look forward to pitching and networking in Paris later this fall.

For the second year in a row, we have been selected as a Global Finalist from the world-renowned Hello Tomorrow Challenge. From over 5,000 applications from 128 countries, we're proud to have been named one of seven 'Advanced Computing & AI' finalists competing to win at the Hello Tomorrow Summit.

### **What is the Hello Tomorrow Global Summit?**

The Summit welcomes 3,000 of the brightest deep tech enablers including entrepreneurs, academics, investors and corporate executives. Over two days, the venue in Paris will become a nexus of deep tech innovation, empowering entrepreneurs to build a better tomorrow.

**INFORMS**  
**Washington D.C.**  
**November 8-11**

MemComputing is excited to exhibit at the 2020 INFORMS Annual Conference this year in Washington, D.C. INFORMS is the world's largest professional association dedicated to and promoting best practices and advances in operations research, management science, and analytics to improve operational processes, decision-making, and outcomes.

This conference attracted thousands of academic and industry experts in the INFORMS community, making it the Operations Research event of the year. Be sure to stop by booth #35 to see the MemComputing team!
