## May 2020

"Break on through to the other side!" - The Doors.

As the COVID-19 lockdown restrictions begin to ease (at least here in San Diego), we are starting to see light at the end of the tunnel. We are fortunate to receive continued support and great interest from large organizations within the DoD, Oil and Gas, and Transportation Logistics, where our technology is providing breakthroughs in operational efficiencies and cost savings.

Social Media: One of our goals is to reach 500 followers on LinkedIn by the end of next month! Help us get there by giving us a follow: <https://www.linkedin.com/company/memcomputing/>

From podcasts and new videos to virtual conferences, here are the highlights from our month!

## MemComputing Sightings

### Geospatial Frontier Conference

Just last week, our CEO John Beane was featured on the Space Panel during the Geospatial Frontier Conference, where he spoke about MemComputing and the applicability of the technology in this market. [Dive in](#) to explore the unique applications of MemComputing in space!

## Mission Matters Podcast

Earlier this month, our CIO Larry Heminger was featured on Mission Matters Innovation Podcast. [Discover](#) just how disruptive MemComputing is and learn about some of the complex problems we are solving today!

## INFORMS

The Informs Business Analytics conference was held online this year due to COVID-19. We were proud to sponsor this event as our technology has tremendous applications related directly to the field of operations research.

We are looking forward to attending the Annual Informs Conference later this year in Washington D.C.

## Upcoming Events

**Tech Collision Event**  
Colorado Springs

July 28-30

MemComputing has been selected to pitch at the first ever Catalyst Accelerator Tech Collision event this summer.

The event, sponsored by the Air Force Research Laboratory's Space Vehicles Directorate, the Small Business Administration-SBIR/STTR program, and Tech Warriors Ops, will be a 3-day pitch event where 32 – 40 startups and small businesses will have the opportunity to pitch innovative, dual-use space technologies to government and industry tech scouts. We are

## Hello Tomorrow

**Postponed: Now October 22-23, 2020**  
**Paris**

We were planning on attending the Hello Tomorrow Global Summit in March, however due to the COVID-19 crisis, this event has been postponed until October. We look forward to pitching and networking in Paris later this fall.

For the second year in a row, we have been selected as a Global Finalist from the world-renowned Hello Tomorrow Challenge. From over 5,000 applications from 128 countries, we're proud to have been named one of seven 'Advanced Computing & AI' finalists competing to win at the Hello Tomorrow Summit.

### **What is the Hello Tomorrow Global Summit?**

The Summit welcomes 3,000 of the brightest deep tech enablers including entrepreneurs, academics, investors and corporate executives. Over two days, the venue in Paris will become a nexus of deep tech innovation, empowering entrepreneurs to build a better tomorrow.

## INFORMS

**Washington D.C.**  
**November 8-11**

MemComputing is excited to exhibit at the 2020 INFORMS Annual Conference this year in Washington, D.C. INFORMS is the world's largest professional association dedicated to and promoting best practices and advances in operations research, management science, and analytics to improve operational processes, decision-making, and outcomes.

This conference attracted thousands of academic and industry experts in the INFORMS community, making it the Operations Research event of the year. Be sure to stop by booth #35 to see the MemComputing team!
