## The Society of HPC Professionals

Our CEO, John Beane was invited to present our technology to The Society of HPC Professionals this month during their Lunch & Learn seminar. The talk, titled “MemComputing, the technology you have never heard of that will change computing” gave an overview of our technology and its applications in High Performance Computing. The full presentation will be available on our website in the coming weeks.

## Optimizing Last Mile Logistics

As gas prices continue to rise, companies are being forced to re-evaluate their supply chains. Learn how MemComputing is mitigating these challenges through

optimized routing and scheduling solutions at unprecedented speed and scale. Our partners in trucking, shipping, rail and aerospace are experiencing dramatic reductions in operating costs while unlocking new levels of operational efficiency, capacity, and flexibility to reap new competitive advantages.
