

#### Latest Event

## TechConnect Conference

MemComputing proudly showcased its technology at the TechConnect World Innovation Conference in D.C. last week. This was a great opportunity to connect with DoD stakeholders and SBIR program managers to further raise awareness of our technology.

#### Latest Press Releases

## USAF Phase I SBIR

Thrilled to announce we've been awarded a new Phase I SBIR contract with the U.S. Air Force to optimize contested logistics applications. Our revolutionary MEMCPU™ Platform will be applied to enhance combat efficiency, increase capacity, and improve the resiliency of the warfighter's mission. Stay tuned for Phase II developments!
